SUSAN FREDMAN & ASSOCIATES ROLLS OUT COTTAGE CHIC FABRIC COLLECTION

CHICAGO, IL --- <http://www.susanfredman.com> ---The latest design offering from the talented interior design team at Susan Fredman & Associates are whimsical retreat fabrics celebrating the beach, the woods and country living. With 15 ASID designers on staff and two offices (Chicago and Harbor Country, Michigan), Susan Fredman & Associates is the largest residential design firm in the area.

Inspired by the richness of the changing seasons, the cottage chic collection has four mix-and-match palettes under the signature name of [*At Home With Nature*](#). The lines, called Woodland Retreat, Beach House, Sand Dunes and Farmhouse, are a linen and cotton blend with irresistible icons in abstract shapes and patterns, including “Flip Out” featuring the ever-popular flip-flop footwear, “Inner Tube” a variation on polka dots, “Full Bloom” a timeless foliage print and “In Stitches” an elegant variation on traditional broadcloth or ticking stripe.

“A signature fabric collection gives us another quality resource to draw upon when we can’t find exactly what we need elsewhere,” said [Susan Fredman](#), the founder and president of Susan Fredman & Associates, Ltd. “We also saw a need for fabrics that are casual and relaxed, yet worked well with sophisticated prints, stripes and rich solids.”

More...

“The versatility of these fabrics is their ability to be dressed up and down to fit every lifestyle,” she added.

The *At Home With Nature* fabrics are ideal for bedding, table linens, window treatments, and accessories. The cheery designs and combination of different patterns look just as comfortable at a lakeside retreat as they would at a sprawling suburban estate or country home. All fabrics are available to the public on their e-commerce site, SusanFredmanAtHome.com, or through Susan Fredman & Associates interior designers in Chicago and Harbor Country, Michigan.
